## Diploma in Special Effect and Prosthetic Makeup Artistry Level 5

### **Portfolio Requirements**

It is a requirement of the programme that students submit a portfolio of their own work. The purpose of this portfolio is to ensure that students who are accepted on to the programme receive whatever learning support they need.

This work will be sketches of characters or designs. There will be four images, and these may be presented on a single page or on separate pages. The images must have a common character or theme of your choice. It will be useful to think of characters and designs from the world of movies, theatre, legends or fantasy stories.

Pages must be A4 in size. Keep in mind that your images may be scanned so use appropriate tools to ensure your sketches are clear.

The images must have a common character or theme of your choice and a title to indicate your intention.

The portfolio must be clearly identified with your full name.

The portfolio must be your own work.

### **International Students**

It is preferable if students provide their portfolio with their application but it is also entirely acceptable for students to work on their portfolio with guidance during the first days of their programme after they have arrived in New Zealand.

### **Domestic Students**

The portfolio may be handed in with your application with the portfolio attached to the CUT ABOVE campus or scan and submit by email.

*New Zealand School of Tourism (NZST) is a Category 1 provider and, as the registered PTE, awards all qualifications offered by Cut Above Academy.*
